# Fashion

## - with Accessories

Fashion is a social expression that reflects its time. It is as old as time and as new as tomorrow.

Fashion Design is a very vast and interesting subject. One's attire speaks volumes about one's character and personality.

Fashion Design with Accessories extends your skills into the area of

fashion with a particular focus on designing accessories such as bags, belts, headwear, jewellery, stoles, footwear ...

At Amor, you will be given the space, skills and expert support needed to strengthen individual talent and

create confidence which will give refinement, style, perfection, finesse etc. to the designed product.

# Interior

- with Applied Architecture

Designing one's abode and work den as per one's requirement is very challenging.

Interior Design defines the physical environment including spiritual, philosophical, mental & emotional relationships that connect man and space.

Applied Architecture subject revolves around a syncretic outlook built on the understanding of various aspects of life, whereas, Interior Design brings meaning to the built environment.

and understand a project as a whole from the aesthetic and artistic point as well.
